Wavin is part of Orbia, a community of companies working together to tackle some of the world's most complex challenges. We are bound by a common purpose: To Advance Life Around the World.

Orbia's Building and Infrastructure business Wavin is an innovative solutions provider for the global building and infrastructure industry. Backed by more than 60 years of product development experience, Wavin is advancing life around the world by building healthy, sustainable environments for global citizens. Whether it's to improve the distribution of clean drinking water, to make sanitation accessible for everyone, to create climate resilient cities, or to design comfortable living spaces, Wavin collaborates with municipal leaders, engineers, contractors, and installers to help future-proof communities, buildings and homes. Wavin has 12,000+ employees around 65 production sites worldwide, serving over 80 countries through a global sales and distribution network.

Wavin Comfia Underfloor Heating System Pack Guide

An Orbia business.

Wavin Comfia Underfloor Heating System Packs

Wavin Comfia System Pack Range

Within the range of Wavin Comfia underfloor heating room packs there's a wide choice of carefully selected products to suit a variety of room sizes and floor types. There are options for both screeded and low build flooring applications and each pack includes everything you need from pipe and floor panels through to manifolds and controls. High quality products with industry leading guarantees.

-  **One Room or Zone**
One room/zone pack to heat a single area. Packs are available for rooms up to 100m² and contain one thermostat.
-  **Multiple Heated Zones**
Multiple room/zone pack to heat multiple areas. Packs are available for rooms up to 160m² and contain 2-8 thermostats.
-  **Sentio Smart Thermostat**
App controlled, smart thermostat solution with time and temperature control.
-  **Dial Thermostat**
Simple dial thermostat.

New Screeded Floor Packs

Wavin Comfia packs are suitable for new build or deep renovation, where a new screeded floor will be installed. Pack contains 16mm pipe.

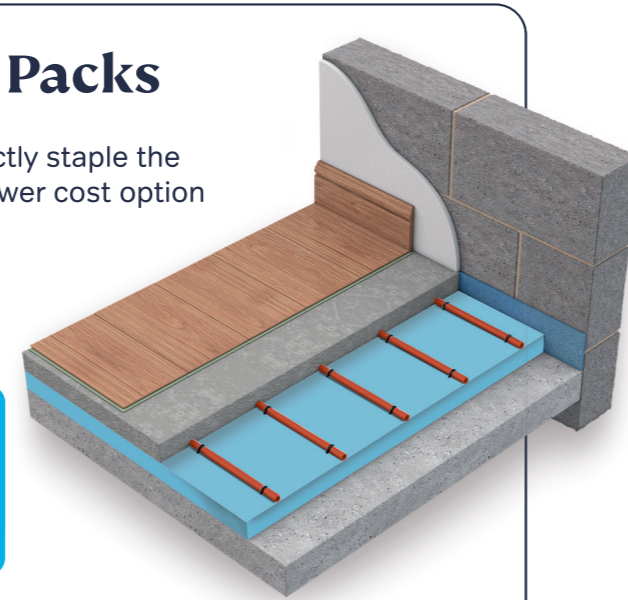

Boiler packs are suitable in systems where the heat source flow temperature is greater than 55°C. Includes control pack with pump for blending pump. Heat pump packs are suitable in systems where the heat source flow temperature is lower than 55°C. Does not require a control pack or pump.

Tacker System Packs

Tacker packs are used to directly staple the pipe to insulation and are a lower cost option than system plate

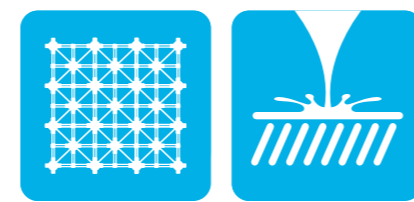

Staples Wet Screed

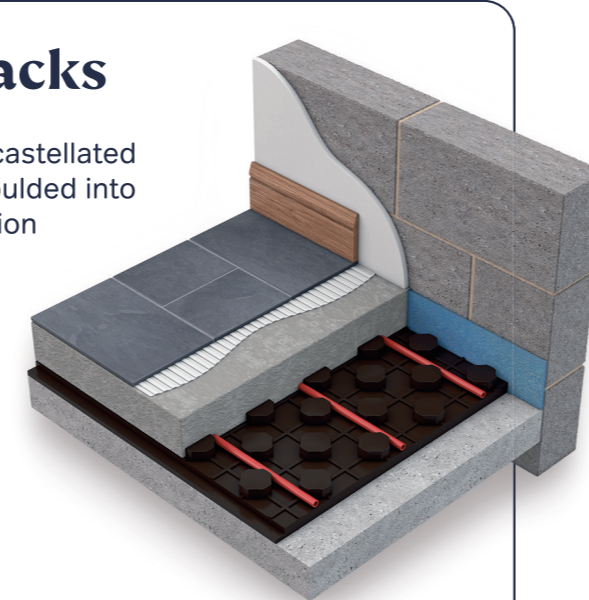

System Plate Packs

System plate packs contain a castellated plate with pipe spacing pre-moulded into the crate for an easier installation

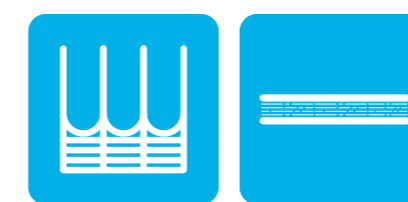

System Plates Wet Screed

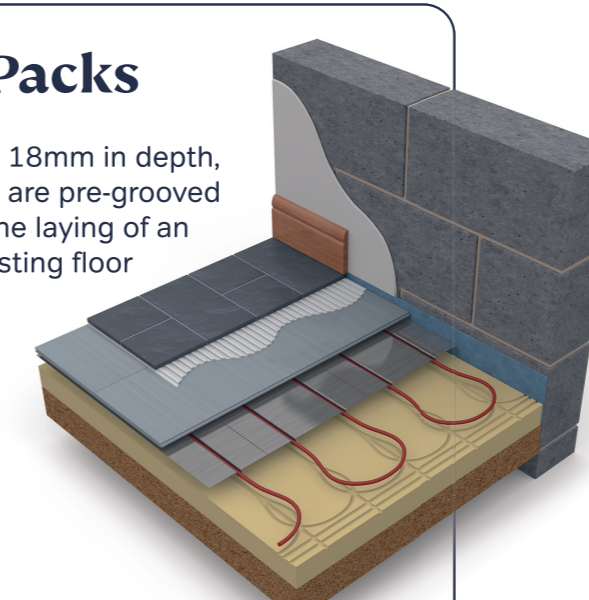

Low Build Panel Packs

A low build panel flooring solution, 18mm in depth, which takes 12mm pipe. Channels are pre-grooved with the correct spacing to allow the laying of an underfloor system on top of an existing floor

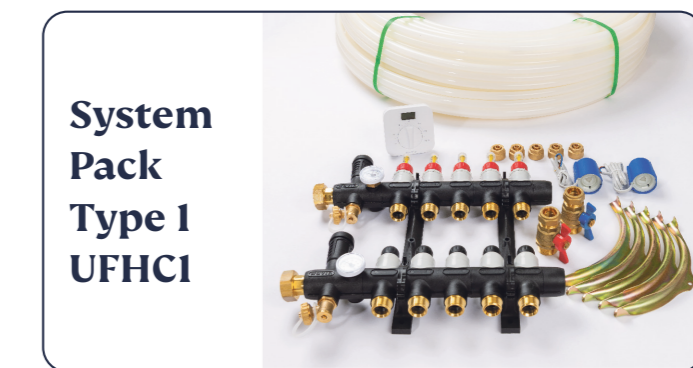

Low Build Panel Overlay Boards

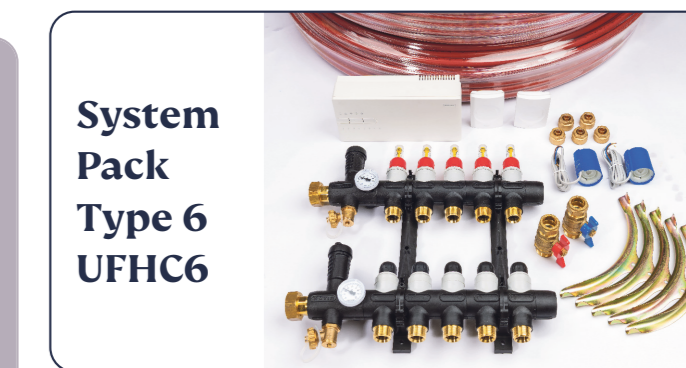

Low Build Overlay Floor Packs

Wavin Comfia 18mm low build packs are suitable for renovation, where an underfloor heating system will be installed on an existing floor. They contain 12mm pipe with 18mm pre-grooved boards.

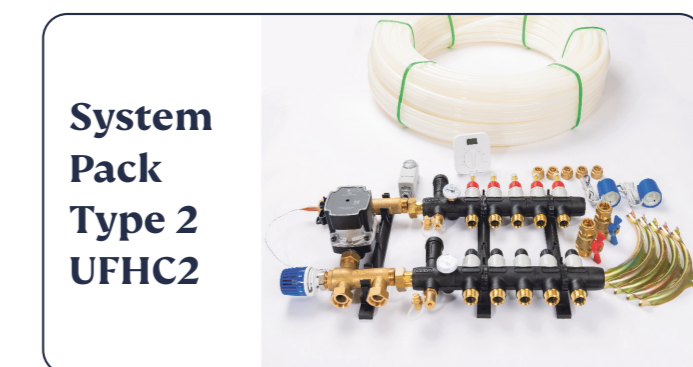

Boiler or heat pump packs are suitable in systems supplied via a boiler or heat pump. They include a control pack with pump for blending.

System Pack Type 10 UFHC10

Wavin Comfia Pack Type 1 UFHC1

Single zone
Area Covered: Up to 100m²
Dial thermostat
Low temperature

Wavin Comfia Pack Type 2 UFHC2

Single zone
Area Covered: Up to 100m²
Dial thermostat
High temperature

Wavin Comfia Pack Type 3 UFHC3

Single zone
Area Covered: Up to 100m²
App thermostat
Low temperature

Wavin Comfia Pack Type 4 UFHC4

Single zone
Area Covered: Up to 100m²
App thermostat
High temperature

Wavin Comfia Pack Type 5 UFHC5

Single zone
Area Covered: Up to 100m²
App thermostat
High temperature
System plate

Wavin Comfia Pack Type 6 UFHC6

Multi-zone
Area Covered: Up to 120m²
App thermostat
Heat pump

Wavin Comfia Pack Type 7 UFHC7

Multi-zone
Area Covered: Up to 160m²
App thermostat
High temperature

Wavin Comfia Pack Type 8 UFHC8

Single zone
Area Covered: Up to 70m²
Dial thermostat
High temperature
Low profile

Wavin Comfia Pack Type 9 UFHC9

Single zone
Area Covered: Up to 70m²
App thermostat
High temperature
Low profile

Wavin Comfia Pack Type 10 UFHC10

Multi-zone
Area Covered: Up to 100m²
Heat pump
Low profile
