

Hearths, Fireplaces, Flues & Chimneys

Checklist Certificate

Hepworth

TERRACOTTA

This checklist provides a summary of all the constructional requirements of hearths, fireplaces, flues and chimneys, and provides certification that all components have been correctly installed. If you have been directly engaged in the installation of these components copies should be made available to the Client and Building Control Body (this page may be copied). This demonstrates your work complies with the requirements of ADJ. If you are a sub-contractor, a copy should be offered to the main contractor. Please use one certificate for each Hearth, Fireplace, Flue or Chimney installation.

1	Building address Where work has been carried out	
2	Identification of hearth, fireplace, chimney or flue e.g. Open Fireplace in Lounge, Gas Only, Oil Only	
3	Firing capability: solid fuel/gas/oil/all e.g. All, Gas Only, Oil Only	
4	Intended type of appliance State type or make. If open fire give finished fireplace opening dimensions e.g. Open Fire 480w x 580h (mm), Radiant Convector fire 6kw input, Oil Fired Boiler 18kw output (pressure jet)	
5	Ventilation provisions for the appliance State type and area of permanently open air vents e.g. Hepworth Clay Cavity Liner Air Bricks 10,000mm ²	
6	Chimney or flue construction a) State the type or make and whether new or existing e.g. New Brick with Hepworth Clay Flue Liners b) Internal Flue Size e.g. 225mm dia c) If clay flue liners are used confirm that they are correctly jointed with socket end uppermost and state jointing materials used e.g. Sockets uppermost, Hepworth fireproof sealant Y108 d) If an existing chimney has been refurbished with a new liner, state type or make of liner fitted e.g. Hepworth BS EN 1457 Approved Clay Liners e) Details of flue outlet terminal e.g. Hepworth Roll Top 250mm internal dia, 750mm height f) Number and angle of bends e.g. 2 x 45 degree bends g) Provision for cleaning and recommended frequency e.g. sweep annually	
7	Hearth: Form of construction – new or existing? e.g. New. Tiles on concrete floor. 125mm thick	
8	Inspection and testing after completion Testing carried out by: e.g. J Smith Building Co Tests (Appendix E in ADJ 2010 ed) and results Flue Inspection: Visual e.g. Not possible due to bends. Sweeping e.g. OK, Coring Ball e.g. OK, Smoke Test e.g. OK	

I/We the undersigned confirm that the above details are correct. In my opinion, these works comply with the relevant requirements in Part J of Schedule 1 to the Building Regulations.

Print name and title	Profession
Capacity (e.g. Proprietor of J Smith Building Co Ltd).	Tel no.
Address	Postcode
